

ANNUAL BUDGET

The annual budget is the financial expression of the mission and vision of the District, and it reflects the goals and objectives of the School Committee to meet the needs of all students.

The budget then is more than just a financial instrument and requires on the part of the Committee, the staff, and the community, an orderly and cooperative effort to ensure sound fiscal practices for developing and achieving the educational goals and objectives of the school district to fulfill the mission and vision.

Public school budgeting is regulated and controlled by legislation, state regulations, and local School Committee requirements. The operating budget for the school district will be prepared and presented in line with state policy and will be developed and refined in accordance with these same requirements.

The Superintendent will serve as budget officer but he/she may delegate portions of this responsibility to members of his/her staff, as he/she deems appropriate. The three general areas of responsibility for the Superintendent as budget officer will be budget preparation, budget presentation, and budget administration.
